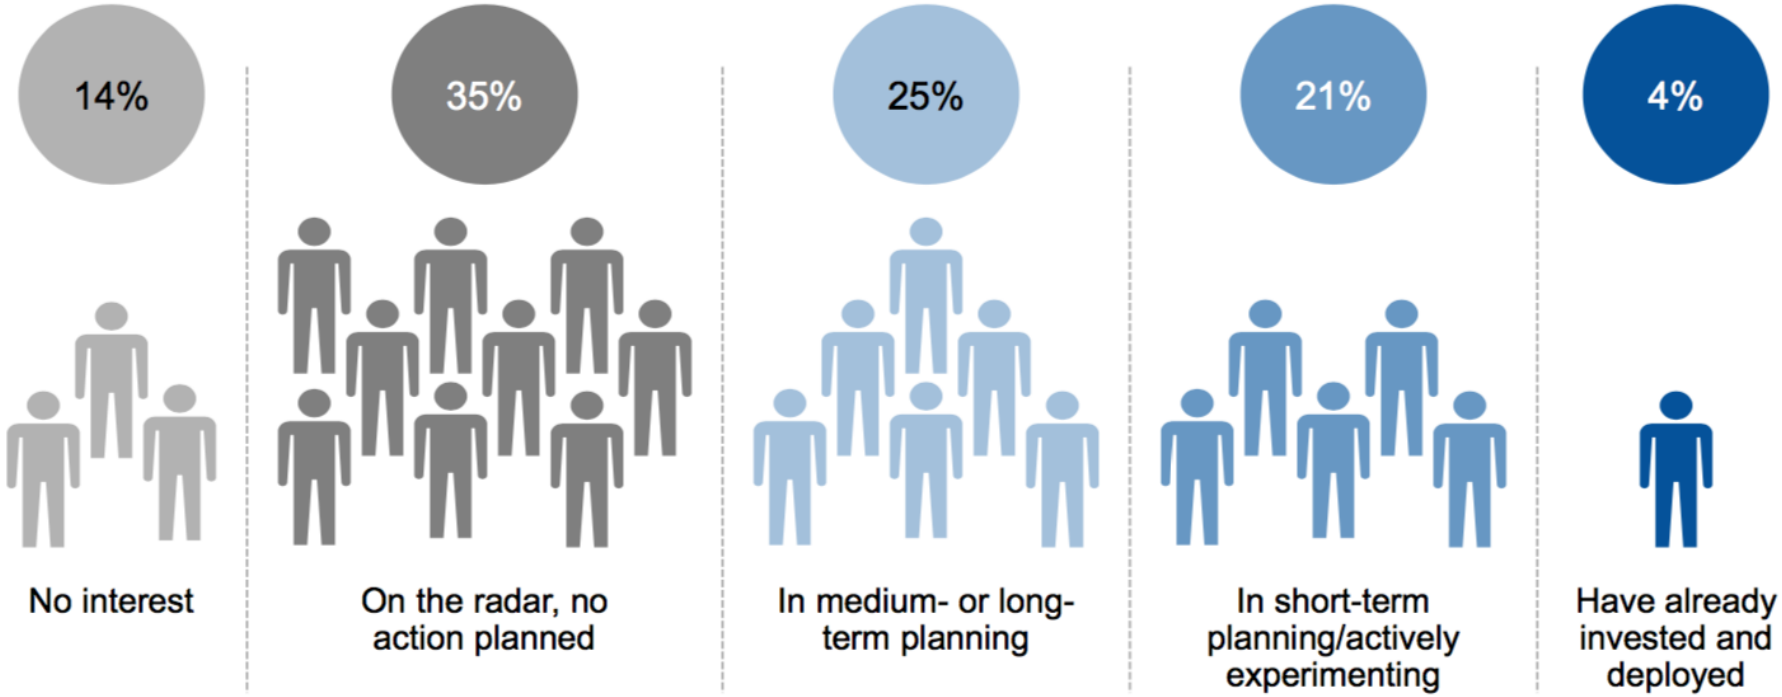
Artificial Intelligence Is in Early Adoption

Percentage of Respondents



Q: What are your organization's plans in terms of artificial intelligence?
Base: All Answering, n = 3.138
Source: Gartner 2018 CIO Survey

Source: Gartner, *Real Truth of Artificial Intelligence* by Whit Andrews

Presented at Gartner Data & Analytics Summit 2018, March 2018

Artificial Intelligence

The capability of a machine to imitate intelligent human behavior

Artificial Intelligence

The capability of a machine to match or exceed intelligent human behavior

Artificial Intelligence Today

The capability of a machine to match or exceed intelligent human behavior

by training a machine to learn the desired behavior

There are two ways to get a computer to do what you want

Traditional Programming

Do you need AI?

KUKA
KUKA
Z

AI for Predictive Maintenance

- Measure the wear of each robot
- Predict and fix failures before they happen
- AI handles uncertainty and variability

Are you ready for AI if …

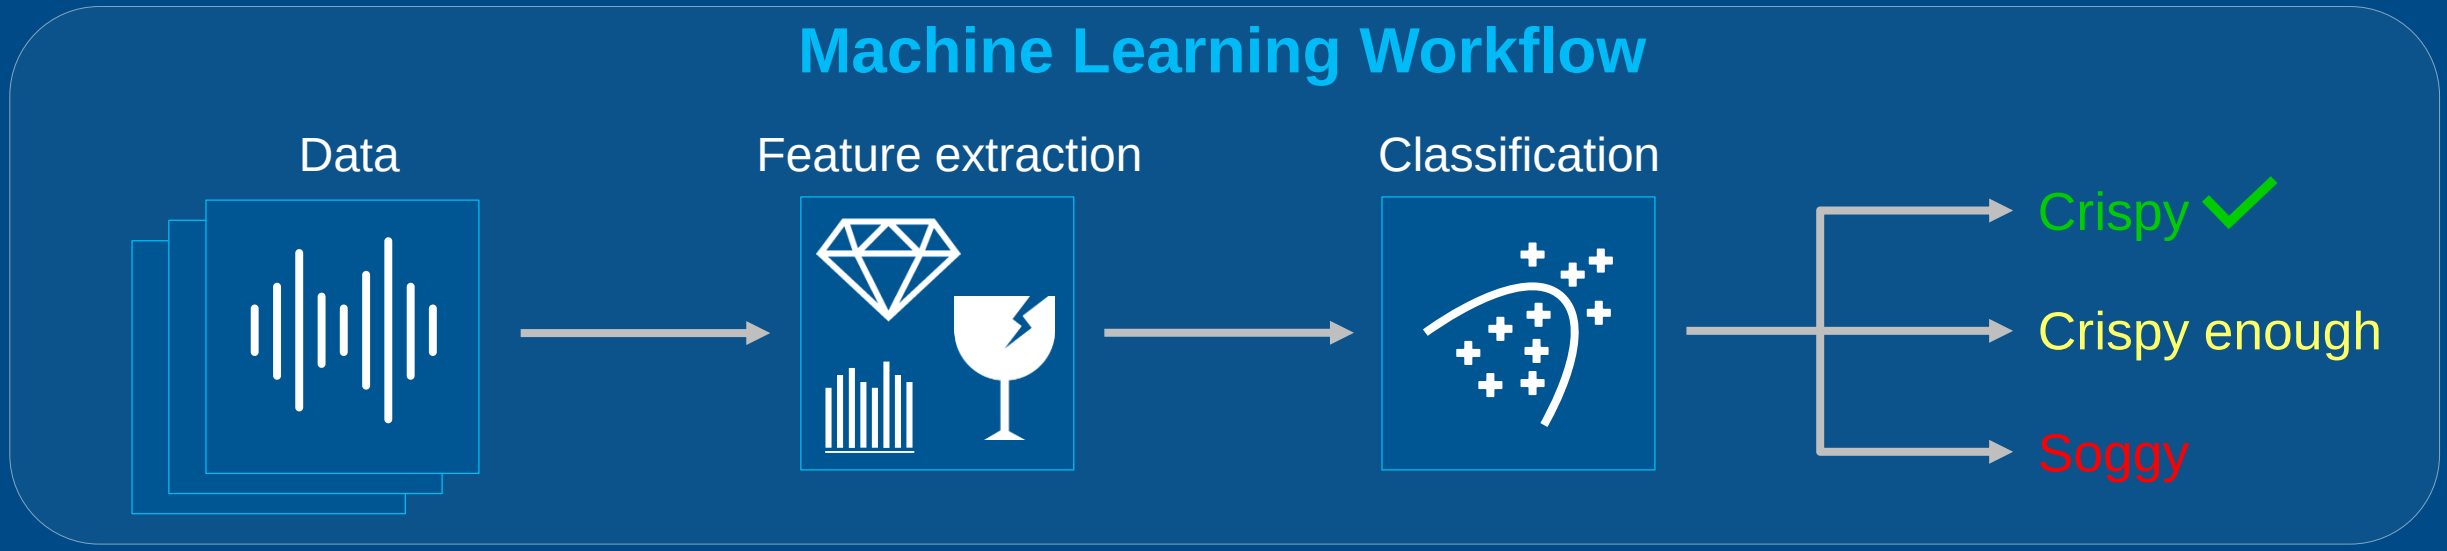
Are you ready for AI if you've never used machine learning?

- No experience required
- Use apps to try out all possible models
- Use domain expertise and familiar tools to prepare data

Are you ready for AI if …

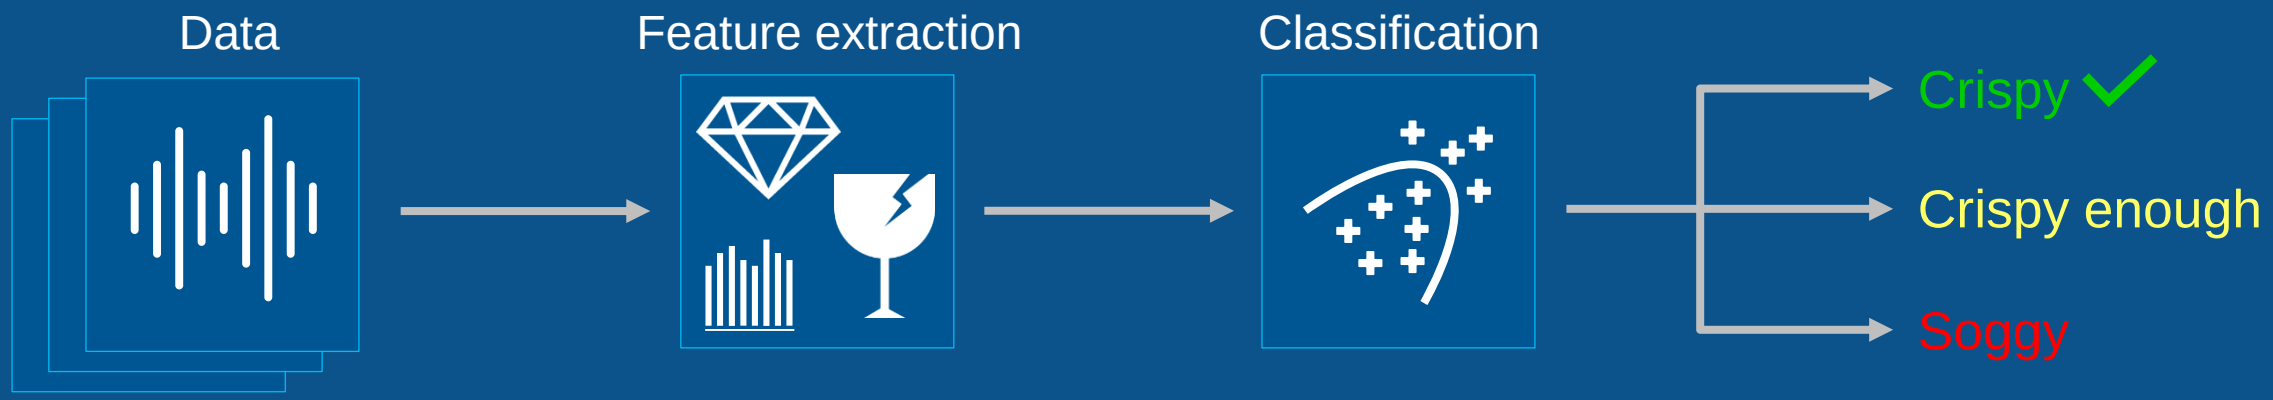
You can’t identify features in your data?

Use deep learning to identify features automatically

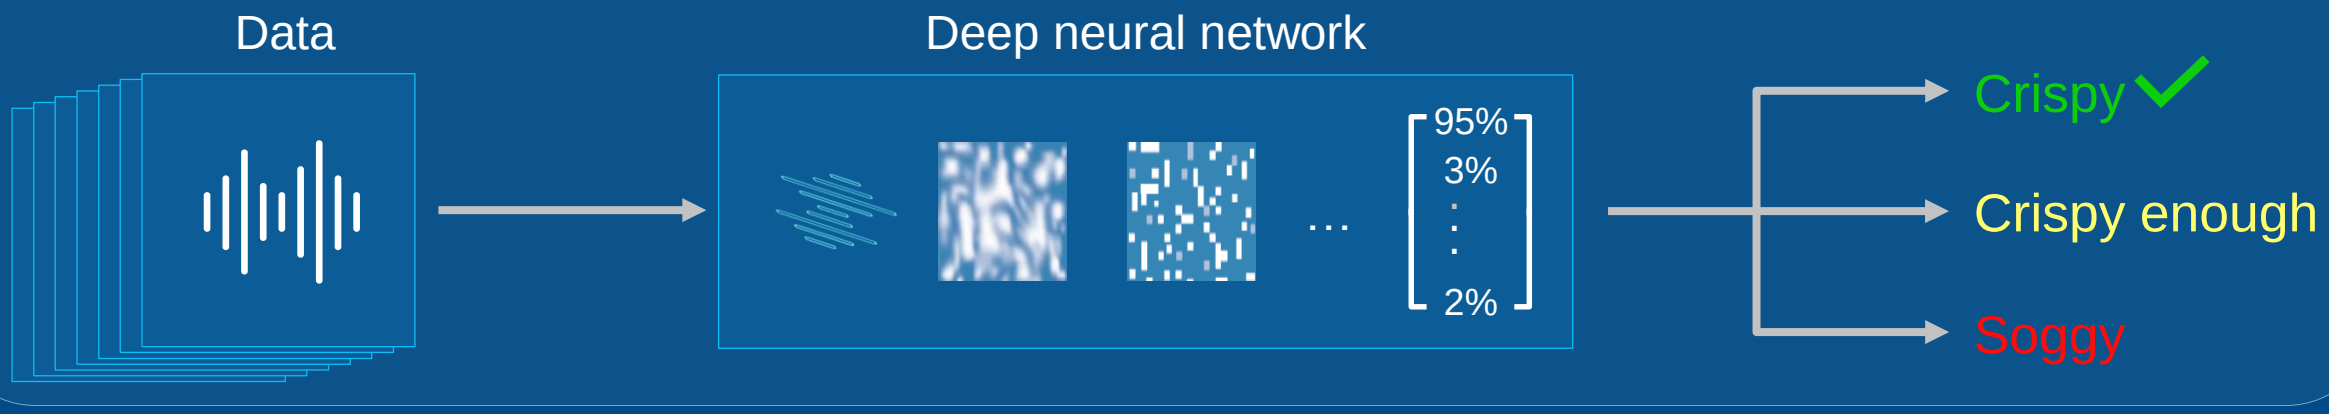


Use deep learning to identify features automatically

Machine Learning Workflow

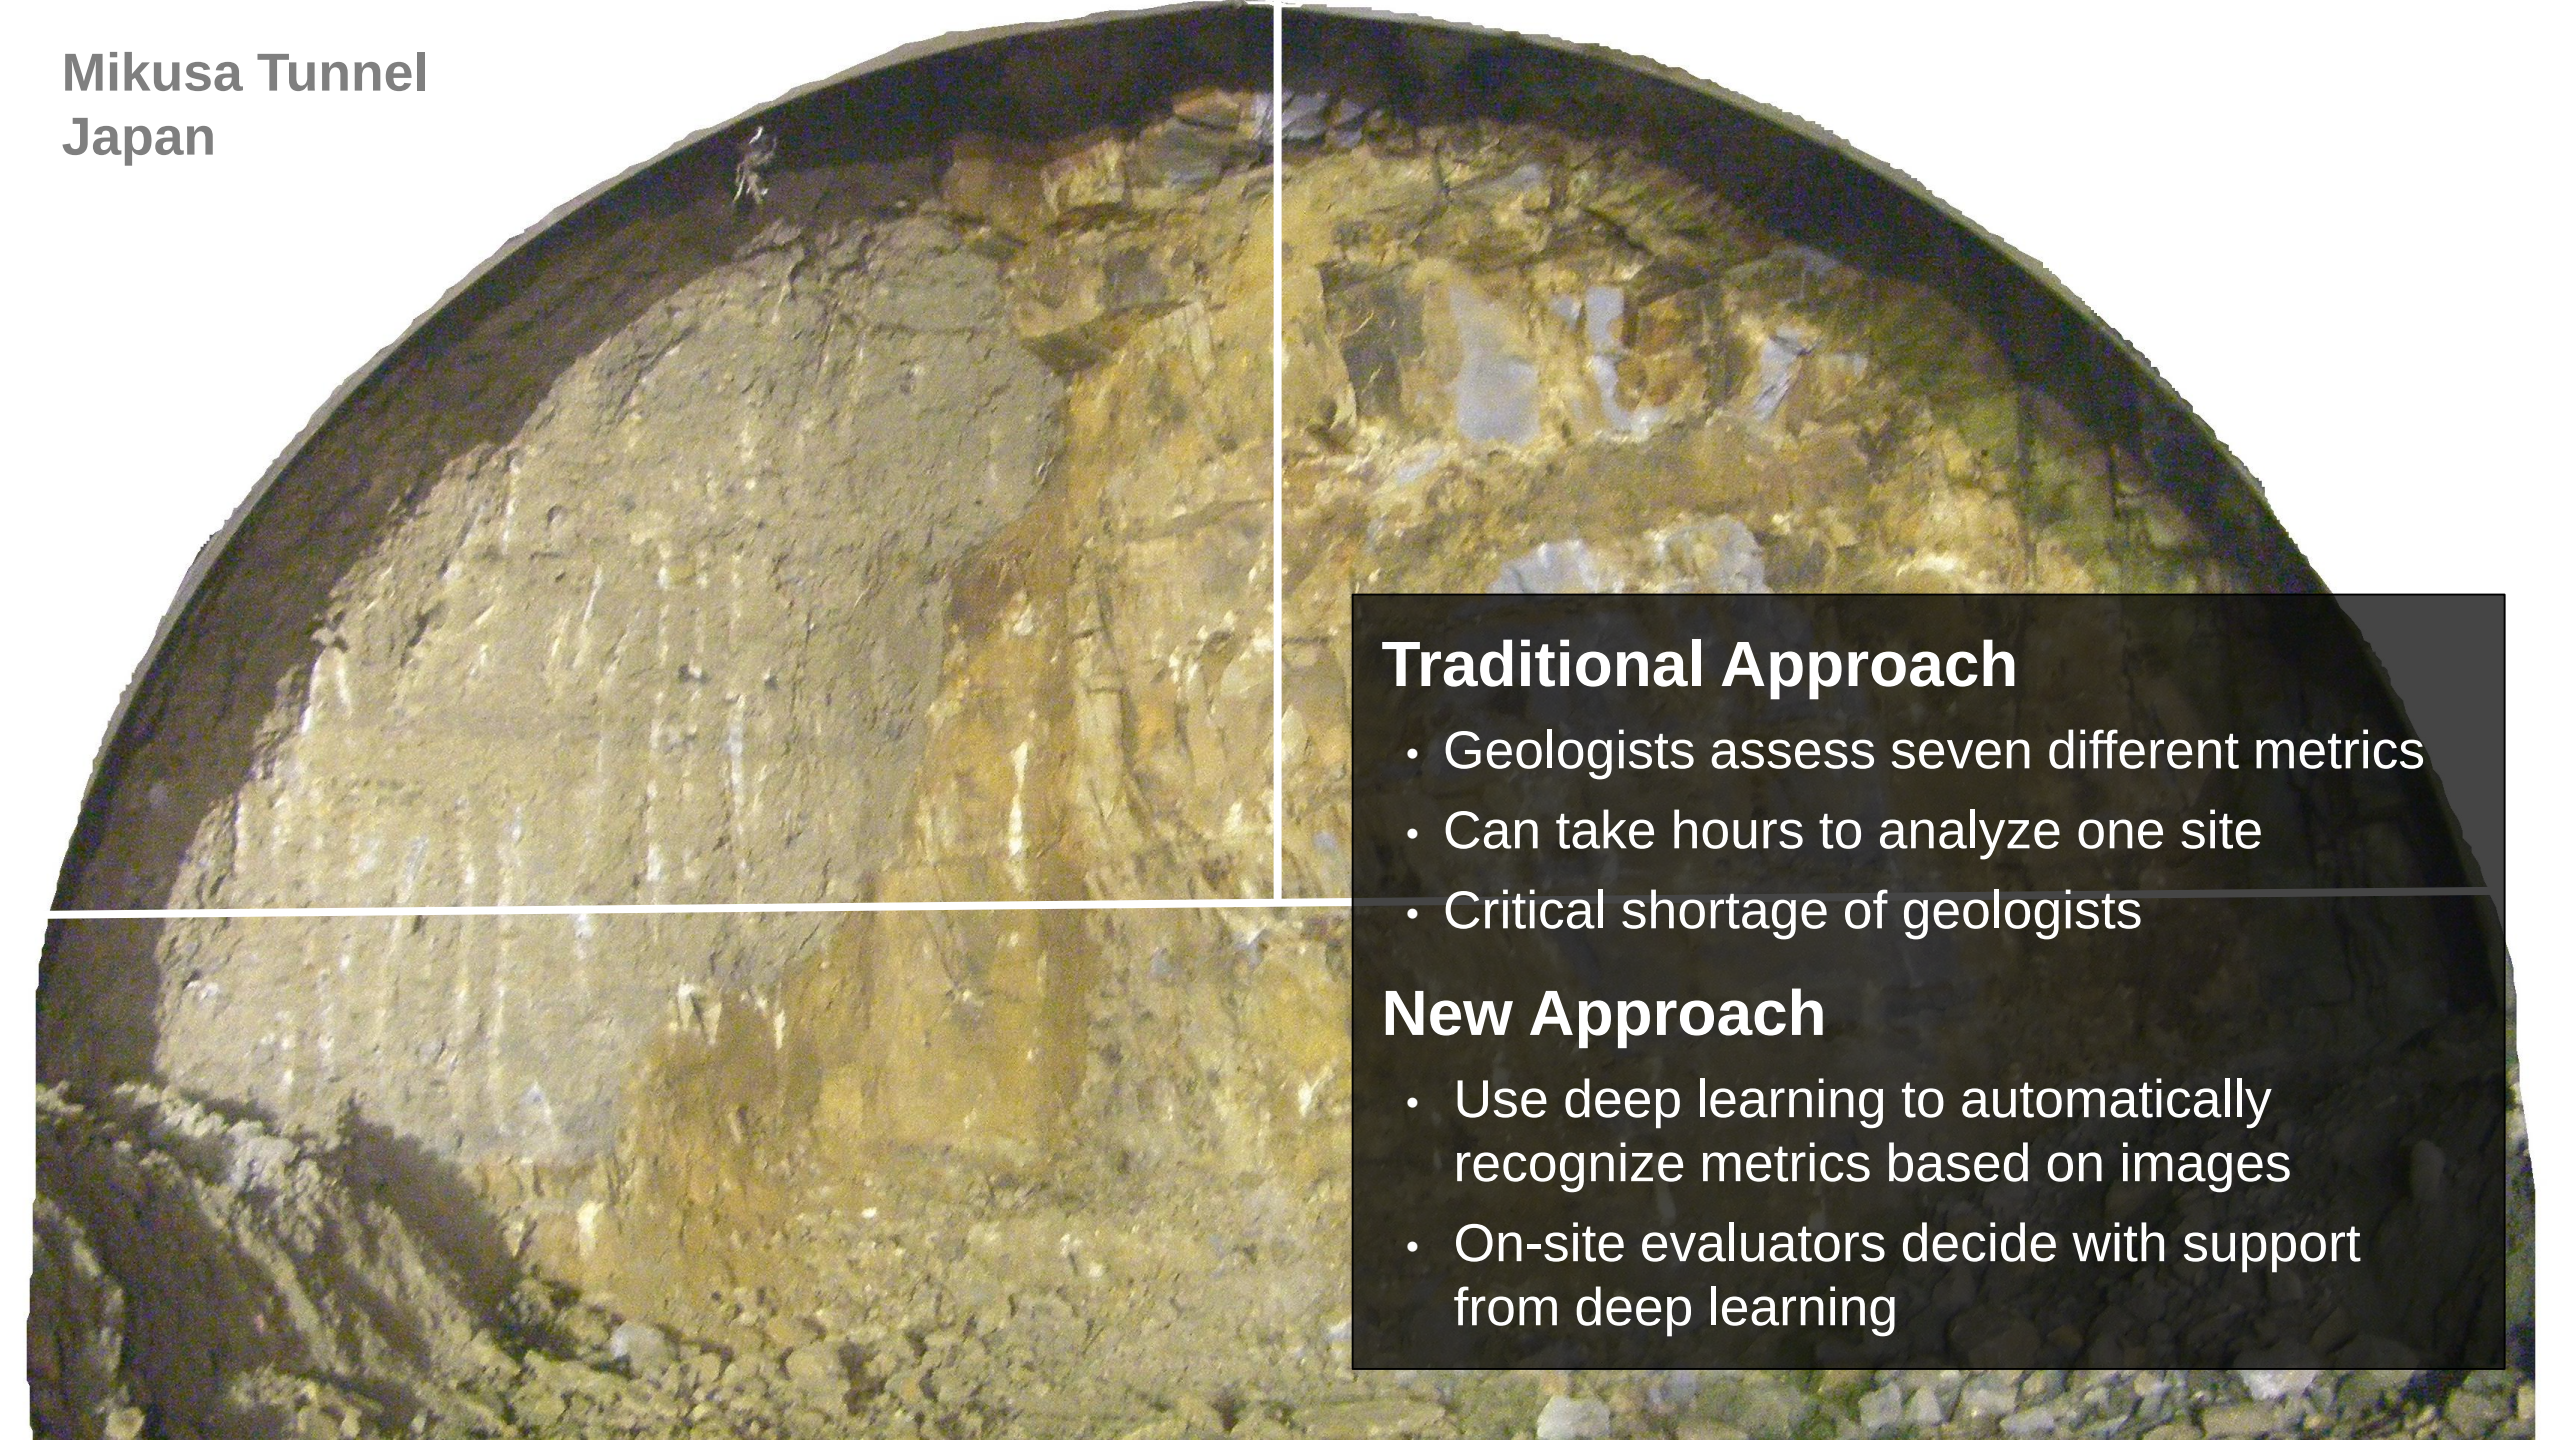


Deep Learning Workflow



SPEED
LIMIT
45

Mikusa Tunnel
Japan



Traditional Approach

- Geologists assess seven different metrics
- Can take hours to analyze one site
- Critical shortage of geologists

New Approach

- Use deep learning to automatically recognize metrics based on images
- On-site evaluators decide with support from deep learning

Efficient tunnel drilling with deep learning

Obayashi Corporation

Split into sub-images

Label each sub-image

Image	Weathering Alteration (1-4)	Fracture Spacing (1-5)	Fracture State (1-5)
	3	3	2
	4	1	1
	2	3	2
	3	3	2
⋮	⋮	⋮	⋮

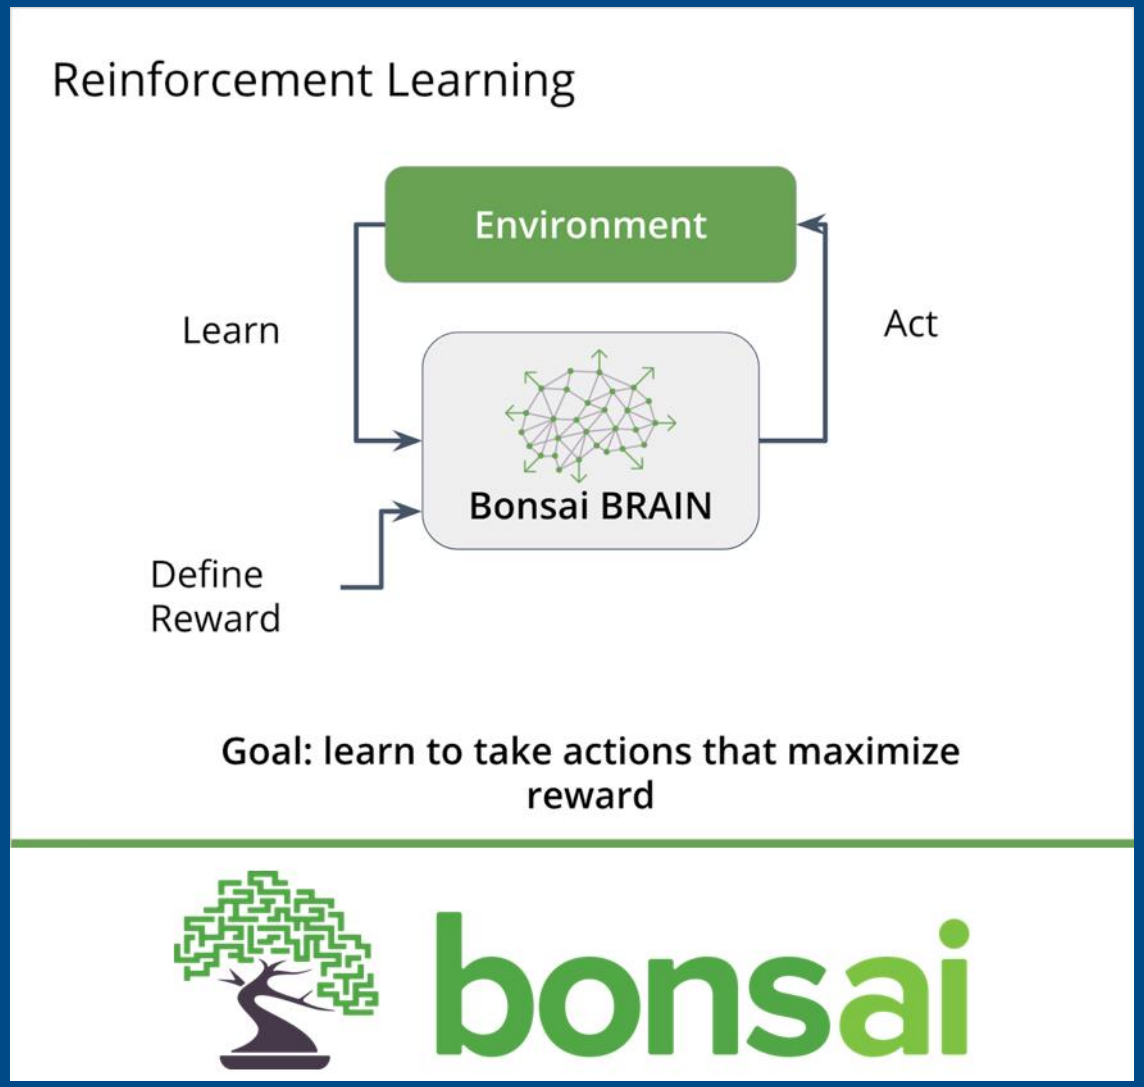
Inject failures

Are you ready for AI if you don't have the right data?

- Generate data with simulations
- Simulation environment for reinforcement learning



Low-carbon homes

- Generate power with fuel cell and solar panels
- Store power in battery
- Buy power when needed; sell when extra
- Record data on environment and energy usage

Low-carbon homes

- Generate power with fuel cell and solar panels
- Store power in battery
- Buy power when needed; sell when extra
- Record data on environment and energy usage

Goals

- Minimize energy cost
- Use EV battery for additional storage

Akira Ito and Ryu Matsumoto

"The effort would have taken significantly longer if we had used disparate tools.

[MATLAB] enabled our team of domain experts, who lacked formal training in data science, machine learning, and parallel computing, to incorporate all these areas in our design process."
